**WE BUILD YOUR DREAM HOME**

# What all we do

## DESIGNS AND DRAWINGS

- 2D Floor Plans
- 3D render of the front façade
- 2D Furniture Layout
- Structural Designing
- MEP Drawing: Plumbing and Electrical Layout
- Working Drawings for Execution

## SUB STRUCTURE WORK

- FOUNDATION- By Footing Method
- STRUCTURE DESIGN - As per Licensed Structural Engineer with his Certification.
- FOUNDATION DEPTH- Maximum Upto 6' depth from the natural ground level on yellow soil.
- Anti Termite Treatment

## CORE CONSTRUCTION MATERIALS

- TATA Tiscon, Moyra, etc TMT
- Ultratech/ JK Super cement
- Concrete Grade: M20. (Mix 1:1.5:3)
- Best Quality Open Bhatta Red Bricks. Rs 9/Brick
- Shuttering MS Sheets, Plywood
- Coarse Aggregate: 12mm, 20mm
- Fine Aggregate: Narmada River Sand
- Ceiling height:10.5 ft ( Floor to Slab top)
- Plinth height: 1.5 feet height from the Road Level

## PLASTERING AND PAINTING

- Internal plastering with 2 coat in cement sand mortar of the ratio 1:4
- External plastering with 2 coat in cement sand mortar with the ratio 1:4 mixed Dr. Fixit Waterproofing chemical
- Putty (2 coats)-JSW, Asian Paint, BirlaWhite, etc
- Interior & Exterior Primer (1coat)-JSW, Asian Paint, Birla White, etc
- Interior & Exterior Painting (2 Coat)- JSW, Asian Paint, Birla White, etc
- Windows grills-JSW Paint, Asian Paint, etc

# **STRUCTURAL CRACK: 10 YEARS WARRANTY WITH CERTIFICATION**

Structural Cracks are due to poor construction works, poor soil bearing, or overloading .

The common characteristics of structural cracks include:

1. Vertical Cracks that are wider at the top or bottom
2. Stair-Step Cracks in Walls.
3. Cracks in Beams or Foundation slabs.
4. Cracks wider more than 2mm.

## **Precautions:-**

1. Structural design as per soil bearing capacity, certified by Structure engineer and 99 Real Estate Group
2. Homogeneous Concrete mix and required water cement ratio with in all structural member.
3. M20 Concrete, high quality reinforcement and skilled workmanship.
4. A Grade quality materials (Cement, Sand, Aggregates and Steel)
5. Curing up to sufficient period.

# **NON-STRUCTURAL CRACK: 1 YEARS SERVICE WARRANTY**

Non-structural cracks are caused by changes in the moisture content and thermal movement. They can occur anywhere in the wall and plaster surface.

Some characteristics of nonstructural cracks include:

1. Narrow, 1-2 mm wide cracks
2. Vertical or diagonal cracks
3. Cracks on plaster surface

## **Precautions at the time of construction :-**

1. A Grade quality materials at the time of plastering. (Cement, Sand)
2. Curing up to sufficient period.
3. Required and homogeneous Mortar ratio.
4. Skilled workmanship

## **SERVICE WARRANTY OF 1 YEAR AT DOOR STEP ON ONE CALL**

- 1. Water leakages, Seepages due to poor waterproofing work (Toilet, Balcony, Terrace, Wash area, UG Water tank)**
- 2. Issue in electrical lines (circuit issues, burnt wires, Switches and Sockets)**
- 3. Issue in Plumbing work (CP fittings, Water pipes, Plumbing fixtures, Drainage)**
- 4. Carpentry (Doors, Windows, Fittings)**
- 5. Loosening of tiles and slopes issue**
- 6. Rusting of SS railing Pipe work**
- 7. Peel off of paints**
- 8. Railing glass**

# **ITEMS NOT INCLUDED IN PLANS**

- Special Elevation Features (Deviations from standard Architectural Elevation.
- Isolated Foundation above 5' depth
- Circular/Helical staircase & Lift
- Safety Doors
- External & Internal Electrical & lighting Fixtures
- Surrounding Boundary wall, Compound Wall, Main Gate.
- Solar System (Electric & Water) & DG Back up
- Video Door Phone with intercom, Door Bell
- Geyser, Invertor & Earthing Work
- Borewell
- Earthing Work
- False Ceiling, Interior Design, Landscaping Works
- Setback development area i.e. area outside plinth/Built-up area for parking & other development
- Back Filling above specified Limit
- Rain Water Harvesting
- AC Copper line Work
- Water Pump, Pressure Pump, RO, Water Softener
- Name Plate, SS Lettering
- Glass bath shower Partition, Bath Tub
- Home Automation
- Vanity, Gas Line, Camera & WIFI Line
- Terrace Flooring & Tiles in UG Water Tank

Start of First Coat Internal Painting	10%
Start of Chrome Plated & Sanitary Installation Works	5%
<b>Total</b>	<b>100%</b>

The background of the image is a dark, slightly grainy photograph of a construction site at dusk or night. Several large tower cranes are silhouetted against a lighter sky. One crane on the left has its arm extended upwards. Another crane on the right is more prominent, with its arm extended horizontally. In the foreground, there are some low-lying structures and what looks like a small vehicle or piece of equipment.

**Thank You**
